Regional Director  
Department of Education Region IX

Attention: Science Education Coordinator

Dear Madame:

Greetings from the science clubbing movement!

The Philippine Society of Youth Science Clubs (PSYSC), Inc. is a countrywide organization committed in upholding the significance of science clubbing and in promotion of science, technology and environment as its main thrust. In a span of 46 years, the PSYSC has conducted positive, practical and realistic activities and programs for elementary and secondary students which enhance not just the academic perspective of each science clubber but their environmental and social awareness as well.

Pursuant to Presidential Proclamation No. 264, PSYSC celebrates the National Science Club Month every September. The topic for this year is Geoscience with the theme, **EarthBeat: Excavating the abyss, pulsing the current, steering the youth as stewards of sustainable development.** As part of the celebration, the organization will be conducting different activities, which will strongly espouse the science clubbing movement in the Philippines. The **National Science Clubs Summit**, a one-and-a-half-day science clubbing experience specially designed for those who do not get the chance to experience other national activities of PSYSC, will be one of these activities. The Summit is composed of lectures, workshops and other exciting programs, which will encourage students to participate in the nationwide campaign of our main thrust and basically advances their solidarity, camaraderie and leadership skills.

This year's Summit is scheduled on September 9-10 at Zamboanga del Sur National High School in Pagadian City, Zamboanga del Sur. We are inviting your office to take part by personally attending or sending a representative to grace our activity and give a short message during the opening program. We are also humbly asking your office to help us in disseminating information about the Summit by issuing a memorandum or an advisory in your division. Attached here is the sample format of the memorandum, which you can follow.

The organization is very eager on imparting this knowledge in the youth. With your aid and expertise, we may be able to train young minds into an environmentally aware and concerned citizen of this country continually supporting the science clubbing movement and to take part in living a greener and sustainable lifestyle for a better tomorrow.
