PINAS FORWARD

TRANSFORMATIONAL LEADERSHIP, VALUES FORMATION, COMMUNITY ENGAGEMENT.

Pinas Forward is a national movement that seeks to empower Filipinos to dream together for a better country through the power of connectivity. Since 2018, we have conducted 838 highly successful training sessions in 600 schools, organizations, and local government units. Despite the pandemic, we continue to deliver the program via online platforms like Zoom and Facebook Live.

We envision a nation led by a new generation of leaders who are **inspiring, intelligent, digitally aware, and driven towards positive social change**. To achieve this vision, the offered nation-building workshops aim to provide learners and learning partners with the following:

-  a cultural view on the concept of leadership to refresh the youth's mindset on what inherent qualities and fitting behaviors define the nation's collective choice of leaders
-  an in-depth and critical look into current social & technological trends and events to reveal a wider view of the elements that shape and influence the decisions of the learner's generation
-  a set of practical tips & knowledge to aid the learners in practicing safe and responsible online behavior

Gen LIT!

Nation Building Workshops

So LIT!

“LIT!”

is a colloquial term used by young people to describe anything they find excellent, exemplary and extraordinary. Lit is also short for literacies. Taken together, our training sessions on youth leadership and digital citizenship are designed to be both enlightening and enjoyable for our target audience.

Digital LIT-eracies

Digital Thumbprint Program

One of Pinas Forward PH's goal is to amplify awareness of the youth on the importance of digital literacy and netizenship. And in partnership with Globe Telecom, we're able to gradually solidify our connections and inspire the youth towards community engagement and nation-building.

Digital Mindfulness - The online world is a fun place to connect with other people but the youth must be educated about the dangers and risks of providing too much information online. This 1 hour talk is a practical lecture series about how to secure our personal information online.

Digital Impact - Every time we interact, we make an impact. This one hour talk will open the eyes of the youth about how their online behaviors actually create significant repercussions on real people.

Digital Discernment - Why is fake news so effective? How can individuals prevent themselves from becoming victims of this social media phenomena? This one hour talk equips participants with fact-checking skills and logical self-checks to combat the evils of disinformation.

Digital Transformation - Despite the dangers and risks of the online world, social media and the internet are still a powerful tools to advance the cause of nation building. The Digital Thumbprint Program culminates with this one hour talk by inspiring participants to become 21st century nation builders.

Our program offers customizable modules depending on your institution's needs. Please contact our representative below for more information.
