Pursuant to Presidential Proclamation 264 s. 2002 dated September 23, 2002, the month of September has been declared as the National Science Club Month that aims to fully understand that science, technology and environment is vital in the development of a nation in today's age of information and communication technology era.
2. This year's theme "**CLIMAQUEST: Forecasting Wind Shifts, Charting Climate Futures**" examines the cutting-edge in science, traverse dynamic shifts in our climate, and maps the future of our planet.
